

# Monkey-Lizards of the Triassic at the Hairy Museum of Natural History

*Megalancosaurus preonensis* Calzavara, Muscio and Wild, 1980

—  
1 cm

Modified from:

Renesto, S. 1994. *Megalancosaurus*, a possibly arboreal archosauromorph (Reptilia) from the Upper Triassic of northern Italy. *Journal of Vertebrate Paleontology* v. 14 (1) pp. 38-52.

Shaded elements are reconstructions of missing or poorly known elements.
